

Data Appendix

We used one dataset from the Kaggle dataset

(<https://www.kaggle.com/datasets/omkargurav/face-mask-dataset>). This dataset is split into two folders called with_mask and without_mask. Each folder contains images of a person with or without a mask on.

with_mask

This folder within the dataset contains images labeled “with_mask_1” and so on. There are 3,725 images in this folder, and they are divided as shown in the graph above.

without_mask

This folder within the dataset contains images labeled “without_mask_1” and so on. There are 3,828 images in this folder, and they are divided as shown in the graph above.
